Installation

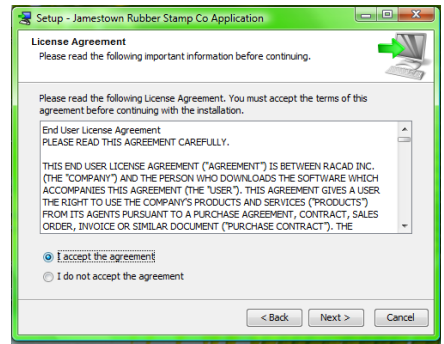

Insert the disc into your disc drive, and an Autorun feature will appear on your screen. This may take a few seconds. Select **Run**.

Several screens will appear with information on them. Press the **Next** button to continue to the next step.

On the License Agreement dialog box, select **I accept the agreement**. If you do not select this, the process will be canceled. After you select to agree, press the **Next** button to begin installation.

When the installation is finished, press the **Finish** button to end the process. You will now find the Jamestown Rubber Stamp Co icon on your desktop and listed as a printer.

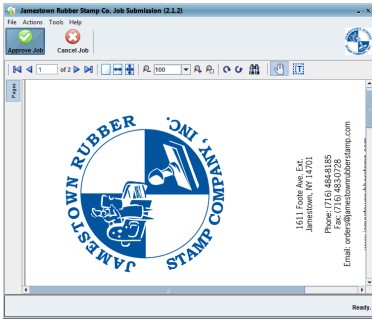

Print Driver Usage

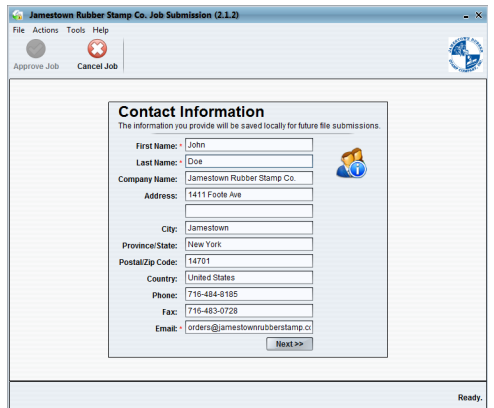

Open the file that you wish to send, and select file then print. Click on the drop down bar to select a printer. Select **Jamestown Rubber Stamp Co** from the list. When you are finished, press **OK** or **Print** to submit your file.

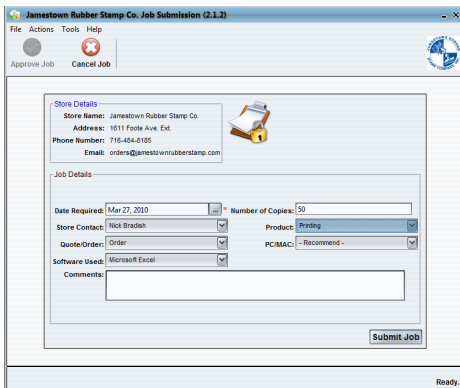

After selecting **Print**, a window should open asking you to review and approve the job. If everything looks good press **Approve Job** to go to the next step.

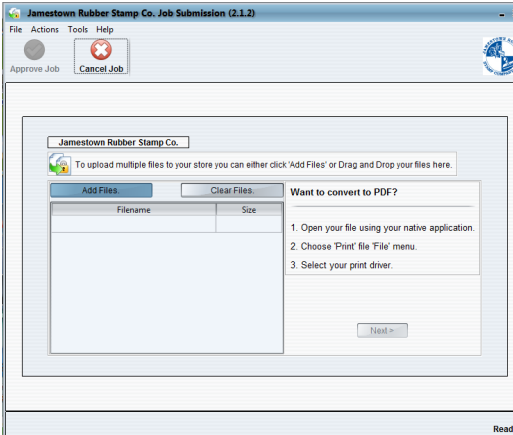

Fill out your contact information and press the **Next** button.

Fill out the necessary options, select **Submit Job** and your job will be sent.

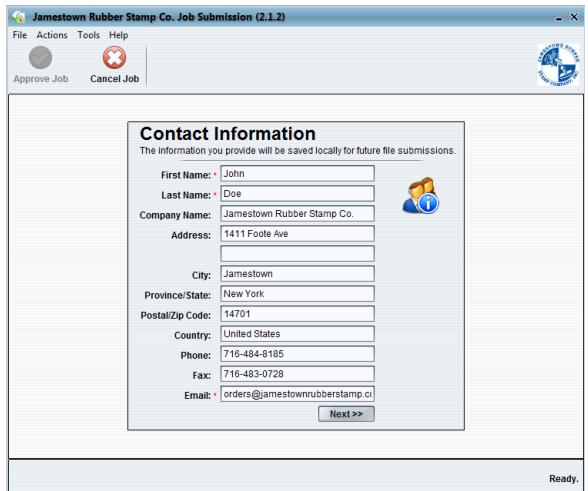

Drop Box Usage

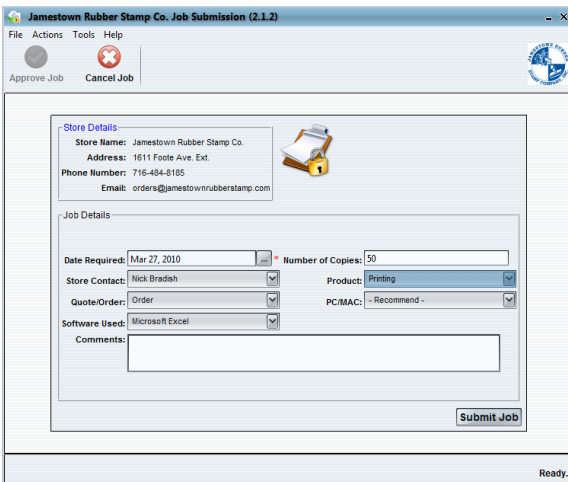

To start a new job, click the **Add Files** button, or drag and drop the file into the box.

Once you have selected a file, press the **Next** button.

Fill out your contact information and press the **Next** button.

Fill out the necessary options, select **Submit Job** and your job will be sent.
